Pedagogical Innovation
Responsible: Maria de Fátima Pacheco; **E-mail:** pacheco@ipb.pt
Location: Bragança Campus
Partners: Bragança Polytechnic University (Portugal), University "Aleksandër Moisiu" Durrës (Albania), Hochschule Bremen (Germany), University Marie & Louis Pasteur (France)), University of La Laguna (Spain), University West (Sweden)
Calendar: Virtual component starting 05/05/2027, ending 09/06/2027. Physical component starting 14/06/2027, ending 18/06/2027.
Contents: Student-centred teaching and active learning methodologies: active, collaborative and problem-based learning approaches. Student engagement and participation: strategies to enhance motivation, participation and student involvement in learning and teaching. Innovative assessment and feedback: formative assessment, alternative assessment methods and effective feedback practices. Inclusive teaching and learning environments: equality, diversity, inclusion, accessibility and approaches to addressing barriers to learning. Digital technologies and artificial intelligence in education: pedagogical applications, opportunities, limitations and ethical considerations. Curriculum and learning design: innovative curriculum development, interdisciplinary approaches and flexible learning environments. Students as partners in pedagogical innovation: student voice, co-creation and student participation in educational development. Internationalisation and collaborative learning: intercultural approaches, international collaboration and Collaborative Online International Learning (COIL). Sharing and evaluating pedagogical practices: exchange of experiences, critical reflection and evidence-informed improvement of teaching and learning.
